

# Eco Intensive Agriculture Conference

## Towards an ecology-intensive agriculture: learning from nature

Amsterdam - 21 April 2015

*How to feed 9 billion people  
without wrecking the planet*

Register now!

<http://nioo.knaw.nl/en/eco-agro>

Venue:

Trippenhuis (KNAW), Kloveniersburgwal 29  
Amsterdam, The Netherlands

 #ecoagro

Agriculture is facing the critical challenge of feeding over 9 billion people sustainably. The 3.8 billion years of evolution in nature may hold the key. During this conference, top scientists will present, discuss and synthesize their perspectives on the opportunities for ecological intensification of agriculture.

Topics:

agroforestry - ecosystem services - global food security -  
intercropping - land use - nutrient cycling -  
plant-soil interactions - socio-economic challenges -  
soil biodiversity - soil organic matter - systems approaches

We look forward to an inspiring conference, and hope to welcome you in Amsterdam!

Sincerely,

Louise E. M. Vet  
on behalf of the organizing committee

Speakers:

Prof. Richard Bardgett  
Dr. Edmundo Barrios  
Prof. Ken Giller  
Prof. Louise Jackson  
Prof. Johan Six  
Prof. Han Wiskerke

Pecha Kuchas:

Dr. Sabrina Carvalho  
Dr. Jessica Duncan  
Dr. Ciska Veen  
Prof. Louise Vet  
Dr. Franciska de Vries
